PROFILE

Computer Science graduate with software engineering experience gained during my training at SABIC. Skilled in mobile and web development using Flutter, Java, and modern web technologies, with a strong focus on UI/UX design.

EDUCATION

2021 – 2025 **Saudi Electronic University**
Dammam, Saudi Arabia *Bachelor of Computer Science*

PROFESSIONAL EXPERIENCE

May/2025 – August/2025 **ERP PP/QM Intern – SABIC**
Jubail, Saudi Arabia

- Contributed to the global STAR SAP transformation project, working with SAP modules, managing UAT defects, and using SSRS for change requests and incident handling.
- Received two professional recommendation letters from SABIC supervisors

SKILLS

Technical Skills

- SAP ERP (PP, PP-PI)
- Master Data
- UI/UX
- Figma
- UAT & Defect Tracking
- Java, JavaScript, HTML/CSS, PHP, XML, Flutter, SSRS & SQL
- Microsoft Office

Soft Skills

- Communication
- Teamwork
- Adaptability
- Problem-Solving
- Critical Thinking

PROJECTS

[Portfolio Website](#) 🌐

Personal portfolio presenting my mobile and web development projects, AI applications, and UI/UX work.

2026 **AI Studio – AI Content Generator (Flutter + Gemini API)**
Developed a Flutter app integrating Gemini API for real-time AI content generation with async handling and modern UI/UX design.

2024 – 2025 **Medark**
Developed a personalized book discovery Android app with smart recommendations, summaries, author bios, user reviews, reading lists, and a nearby library map.

2026 **Debugging Assistant App – Flutter**
Built a developer productivity app using Flutter with modern UI/UX, animations, and responsive design. Implemented error tracking, favorites, and search with reusable components in Dart.

2024 **DNR cake (HTML-JS-CSS)**
A website for purchasing delicious cakes for all occasions, with a variety of flavors and designs to choose from.

CERTIFICATES

- CompTIA Data+: Database Concepts
- CISA 2022: Information Systems Auditing
- Misk Foundation & Foodics: UX Design
- iOS Application Development
- PL-300: Power BI for Data Analysis
- STC: Data Analysis
- Cyber Security
- Internet of Things
- Artificial intelligence, the basics of machine learning and deep learning

ORGANISATIONS

08/2024 – 03/2025 **Saudi Electronic University**
Assistant
Active member of university cybersecurity club, participating in workshops and projects.

12/2021 – 03/2024 **Saudi Electronic University**
Volunteer staff
Member of university social helping club, focused on community service and social impact.

02/2022 **Ithra**
Volunteer assistant
